1. As a volunteer, I want to be able to apply to a project/opportunity so that I can be a volunteer
     a. Scenario: a volunteer wants to apply
          i. Given a volunteer is registered and on the volunteer application page;
          ii. When they click the 'apply' button;
          iii. Then they will receive a confirmation pop up and an email
     b. Scenario: a volunteer has a time conflict and wants to withdraw from a project
          i. Given that the volunteer is logged in and on the volunteering opportunity page that they are already applied to;
          ii. When they press the "withdraw application' button and get a pop up that says 'do you wish to truly withdraw your application with 'yes' and 'no' buttons and they press 'yes';
          iii. Then a pop up says "you have withdrawn your application" and they get a confirmation email.
     c. Scenario: a non registered volunteer wants to apply for a volunteer opportunity
          i. Given that the volunteer is on the volunteering opportunity page and is not yet registered on the website;
          ii. When they click the "apply for opportunity' button;
          iii. Then they will receive an error and see a pop up that says "only registered users can apply! Will you like to log in or to make an account?"
2. As a general user, I want to be able to donate to the organization so that I can provide financial assistance to the organization in general.
     a. Scenario: A user wants to donate with their Paypal information.
          i. Given the user is on the donation page and has a paypal account;
          ii. When their Paypal information is complete and correct and the donate button is clicked;
          iii. Then the user will receive a confirmation message and a confirmation email.
     b. Scenario: A user wants to donate with their card.
          i. Given the user is on the donation page and wants to put in their card information manually;
          ii. When they put in the name of the card, card number, expiration date, and CVC and click donate;
          iii. Then the user will receive a confirmation message and a confirmation email.
     c. Scenario: A user changes their mind about donating.
          i. Given the user changes their mind about donating and has already put in the necessary payment information;
          ii. When the cancel button is clicked;
          iii. Then the user will be taken back to the landing donation page.
3. As an administrator, I want to be able to add events to the event calendar at any time so that stakeholders, general users, and volunteers can always see current activities
     a. Scenario: An admin wants to add an event to the calendar.

        i.   Given the admin has an event to be added to the calendar;
        ii.   When they click on the add event button and put in the descriptive information about the event and clicks the add button;
        iii.   Then the admin will receive a confirmation email.

    b. Scenario: An admin wants to notify all members necessary.
        i.   Given the admin added descriptive information to the event creation page;
        ii.   When they click on "notify respective members" button;
        iii.   Then all the members under the organization will be notified.

    c. Scenario: An admin wants to edit an event recently added.
        i.   Given the admin has already added an event and notices an error on the event creation;
        ii.   When they click on the "modify event" button;
        iii.   Then the admin is greeted with a window to revise the event.

4. As a general user, I want to be able to add comments on the blog so that I can be a part of community discussion
    a. Scenario: A general user wants to comment on a post on the blog
        i.   Given that the user is logged in and on the blog post;
        ii.   When they click the 'comment' button under the post;
        iii.   Then a text editor appears on their screen for them to type their comment

    b. Scenario: A user that is not registered wants to comment on a post
        i.   Given that the user is not logged in, is on the blog page;
        ii.   When they click on the comment button;
        iii.   Then they get a pop up page that says " only registered users can comment, would you like to log in or sign up?"

    c. Scenario: A general user wants to be able to edit their already posted comment
        i.   Given that the user is logged in, on the blog and on their comment;
        ii.   When they click on the edit button on their comment;
        iii.   Then a text editor with their previous comment in it pop ups

5. As a general user, I want to be able to buy merchandise from the organization so that I can make others more aware of the mission of the team.
    a. Scenario: The user want to add an item to their cart
        i.   Given that the user is on the merchandise page
        ii.   When they click on the "Add to Cart" button for a product
        iii.   There will be a pop-up confirming that the product has been added to their cart

    b. Scenario: The user wants to remove an item from their cart
        i.   Given that the user is on the merchandise page and the user is in their 'shopping cart' view
        ii.   When they click the "remove item" button on an item within their cart
        iii.   Then the item will disappear from the cart along with a pop-up saying "item removed"

    c. Scenario: The user wants to checkout the items in their cart
        i.   Given that the user is on the merchandise page and the user is in their 'shopping cart' view

      ii.   When the user clicks the "Checkout" button and inputs their payment info

      iii.   Then the user will receive an email confirmation about their order

6. As a volunteer, I want to be able to see when projects happen so that I can stay informed
7. As an administrator, I want to be able to add pages to the site and see their traffic so that I can see who is visiting my community
8. As a general user, I want to be able to reset my password so that i can access my account again
9. As a general user, I want to be able to make an account from scratch so that I can be apart of the community
10. As a general user, I want to be able to see the locations of the events so that I can participate in them as well.
11. As a project stakeholder, I want to be able to add projects so that I can increase project visibility within the community and get volunteers
12. As an administrator, I want to be able to moderate (delete comments) other users' comments so that I can keep the community blog a safe place.
13. As an administrator, I want to be able to give special access to non volunteers/ regular users so that project managers and partners can do their tasks
14. As an administrator, I want to be able to make blog posts so that I can foster community interaction and discussion
15. As a volunteer, I want to be able to see past events that I have volunteered for so that I can report/have proof of my progress/involvement
16. As a general user, I want to be able to subscribe to community news so that I can stay informed within the community
17. As an administrator, I want to be able to add and remove products from the organization store so that I can keep the store updated
18. As a general user, I want to be able to connect my account to my social media/other accounts so that I can be consolidated
19. As an administrator, I want to notify others when new events are being created so that specific people are able to get the information that they need.
20. As an administrator, I want to be able to delete projects so that I can remove non relevant information
21. As an administrator, I want to be able to see how users find our website and our community so that we can optimize how people find our organization
22. As a project stakeholder, I want to be able to see the progress of current projects so that I can determine whether to continue to get volunteers
23. As an administrator, I want to be able to see the donations that have been made towards the organization so that I can put the money towards what the organization needs
24. As an administrator, I want to be able to embed videos onto the website so that we can provide information about the organization
25. As a general user, I want to be able to see when and where projects are happening so that I can potentially volunteer
