Education

Georgia Institute of Technology, College of Computing   **Atlanta, GA**
Computer Science, Bachelor of Science   *Present*
- **Cumulative GPA**: -.-- / 4.00
- **Thread**: Intelligence and Theory
- **Relevant Coursework**: Artificial Intelligence, Computer Vision, Advanced Algorithms

Gwinnett Technical College   **Lawrenceville, GA**
Computer Programming, Associate of Applied Science   *May 2021*
- **Cumulative GPA**: 3.96 / 4.00
- **Thread**: Computer Programming, Java Programmer (22 credit hours)
- **Honors and Awards**: The Honor's List, HOPE Scholar, Peach State Federal Credit Union, Merit Award
- **Relevant Coursework**: IT Analysis and Project Management, Advanced Systems Project

Work Experience

N/A

Projects

Java Web Application Project   **Lawrenceville, GA**
Dukes Bookstore (JSF Project)   *Apr 2021*
- Developed a web application using JavaServer Faces framework based on Model-View-Control (MVC) design pattern.
- Utilized Apache tomcat web-application server for the basis of the project.

Java Database Management Project   **Lawrenceville, GA**
Northwind Database (Database Management Project)   *Mar 2021*
- Developed a GUI (JavaFX) program establishing and verifying a connection to the database.
- Developed a database having relational data structures by using the Oracle database.
- Constructed an Oracle Thin driver to facilitate communications between JDBC API and the database.

Java GUI Project   **Lawrenceville, GA**
Movie Theater Booking System (JavaFX Project)   *Nov 2020*
- Developed a simple Java GUI program using JavaFX framework.
- Demonstrated object-oriented design and programming for constructing elements of movie theater booking system such as theater, seat, and film classes.

Skills

Programming Languages: C, C++, Rust, Java, Python, R, MATLAB, Haskell, LaTeX, Bash and Shell Scripting, HTML, CSS, Sass, JavaScript, Oracle SQL, MS Access, MySQL, Apache Derby
Technologies: Windows OS, Linux OS, Virtual Machine, Docker, GitHub, SQL, Apache Tomcat, OpenCV, NLP, MS Word, MS Excel, MS PowerPoint, MS Outlook, Adobe, IDEs
Concepts: Machine Learning, Computer Vision, Data Visualization, Linear Regression
Language Proficiency: Korean, English, Japanese
